

## Ethylenediamine, EDA

### 1. IDENTIFICATION OF THE SUBSTANCE OR PREPARATION AND THE COMPANY/UNDERTAKING

## Product label name

Ethylenediamine

#### Supplier

DELAMINE B.V.

Barchman Wuytierslaan 10

3818 LH Amersfoort

PO Box 473

3800 AL Amersfoort

The Netherlands

Tel.: +31-334676897

#### E-mail address of person responsible for safety data sheet

SDS.Delamine@delamine.com

#### **Emergency telephone**

T +31570679211

F +31570679801

AkzoNobel Chemicals-Deventer-NL

#### Intended use

Chemical intermediate

#### Date of last issue / Revision number

2008/10/30 / 3.09

#### 2. HAZARDS IDENTIFICATION

Flammable.

May be very toxic by inhalation of aerosols.

Harmful in contact with skin and if swallowed.

Causes burns.

May cause sensitization by inhalation and skin contact.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is to be considered as a substance in conformance to EC directives.

Information on hazardous ingredients

#### **Chemical description**

Ethylenediamine

#### Composition / information on ingredients

Number	% w/w	CAS-number	Chemical name
1	approx. 100	000107-15-3	Ethylenediamine

	Index-No.		Symbol(s) (EU classification)	Risk-phrase(s)
1	612-006-00-6	203-468-6	С	R10 R21/22 R34 R42/43

#### 4. FIRST AID MEASURES

#### Symptoms and effects

Corrosive to eyes, skin and upper respiratory tract. May be very toxic by inhalation of aerosols ( Do not delay treatment of exposed individuals, death may result ).

#### First aid

#### General

In all cases of doubt, or when symptoms persist, seek medical attention.

## Ethylenediamine, EDA

#### Inhalation

Provide fresh air, rest, half upright position. Seek medical advice after significant exposure.

#### Skin

Remove immediately all contaminated clothing. Wash off with soap and water. Seek medical advice if irritation develops. Launder contaminated clothes with plenty of water before reuse. Destroy contaminated shoes if made of leather.

#### Eve

Rinse immediately and as long as possible with plenty of water (at least 15 minutes). Eyelids should be held away from the eyeball to ensure thorough rinsing. DO NOT remove contact lenses. Always seek medical attention.

#### Ingestion

Only when conscious, rinse mouth, give plenty of water to drink. DO NOT induce vomiting. Seek medical advice.

#### Advice to physician

No specific antidote known. Symptomatic treatment is advised. If burn is present treat as any thermal burn after decontamination. If necessary evacuation of the stomach contents should be undertaken by means carrying the least likelihood of aspiration (e.g. gastric lavage in combination with endotracheal intubation).

#### 5. FIRE-FIGHTING MEASURES

#### **Extinguishing media**

water, spray, foam, sand, Carbon dioxide, dry powder.

#### Unsuitable extinguishing media

halones.

#### Hazardous decomposition / combustion products

Nitrous gases may be produced.

#### Protective equipment

Wear self contained breathing apparatus. Wear a standard aluminised firefighting suit.

#### Other information

Cool closed containers with water. Do not direct a solid stream of water or foam into the burning material; this may cause spattering and spread the fire. Water used to extinguish a fire should not be allowed to enter the drainage system or water courses.

#### Fire and explosion hazard

Toxic fumes.

#### 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions

For personal protection see Section 8.

#### **Environmental precautions**

Treat using the best available techniques before discharge into drains or the aquatic environment.

#### Methods for cleaning up

Absorb with sand, sweep up and put into a container for disposal. Flush remainder with water.

#### Other information

Eliminate all sources of ignition, and do not generate flames or sparks.

#### 7. HANDLING AND STORAGE

#### Handling

Persons with a history of sensitization of the skin or the respiratory tract should not be employed in any process in which this product is used. Transfer and handle product only in closed system. When using do not eat, drink or smoke. Avoid contact with skin and eyes. Use only in well-ventilated areas. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

## Ethylenediamine, EDA

#### Fire and explosion prevention

Keep away from sources of ignition - No smoking.

#### Storage requirements

Store in a dry well ventilated place away from sources of heat and direct sunlight. Store in closed containers preferably under nitrogen.

#### Other information

Store in a dry well ventilated place away from sources of heat and direct sunlight. Store in closed containers preferably under nitrogen. Storage temperature preferred between 11-50 ℃. Avoid contact with atmosph eric moisture

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Engineering controls**

Take precautionary measures against static discharges. Use only in closed system. Do not use copper, nickel and cobalt containing alloys in process equipment. Ensure good ventilation and local exhaustion of the working area.

#### Personal protection

#### Respiratory

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. emergency equipment in case of inhalable dust formation or. When aerosols are present the combined cartridge K/P should be used.

#### Hand

Protective neoprene gloves.

#### Eye

Wear tightly fitting safety goggles.

#### Skin and body

Product code 305201

Protective neoprene boots and protective clothing.

#### Other information

Launder contaminated clothes with plenty of water before reuse. Contaminated leather items (shoes, belts, watch bands etc.) should be removed and destroyed.

Ethylenediamine	
Time Weighted Average (TWA)	18 mg/m³
(private grenswaarde)	

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

. PHYSICAL AND CHEMICAL PROPERTIES
Appearance iquid
Colour colourless
Odour ammonia like
Boiling point/range 17 ℃
Melting point/range 1 ℃
Flash point 40 ℃ ( Pensky-Martens, closed cup )
Flammability not determined

## Ethylenediamine, EDA

**Explosive properties** 

not determined

**Oxidising properties** 

not applicable

Vapour pressure

1.14 kPa (20 °C)

**Density** 

896 kg/m³ (20 °C )

**Bulk density** 

not applicable

Solubility in water

Completely miscible

Solubility in other solvents

not available

pH value

12 (100 g/l water, 20 ℃)

Partition coefficient n-octanol/water

Log Pow: < 0

Relative vapour density (air=1)

2.1

**Viscosity** 

1.6 mPa.s ( 20 °C )

**Autoignition temperature** 

385 ℃

**Explosion limits** 

LEL: 2.7 Vol % UEL: 16.6 Vol %

#### 10. STABILITY AND REACTIVITY

#### Conditions to avoid

Formation of an aerosol.

#### Stability

Stable under recommended storage and handling conditions (see section 7).

#### Incompatibles

acids, chlorinated hydrocarbons, oxidising agents, copper and copper alloys, nickel, cobalt.

#### Hazardous decomposition products

Nitrous gases may be produced.

#### 11. TOXICOLOGICAL INFORMATION

#### Ethylenediamine

#### **Acute toxicity**

Oral LD50

Product code 305201

rat: 625-2700 mg/kg

**Dermal LD50** 

rabbit: 560 mg/kg

**Inhalation LC50** 

rat: 29 mg/l, 8 hours (vapour)

May be very toxic by inhalation of aerosols

## Ethylenediamine, EDA

Irritation

Skin

Corrosive

Eve

Corrosive

Respiratory

Highly irritating.

Sensitization

Causing skin sensitization. Causing sensitization of the respiratory tract.

Genotoxicity

Not mutagenic

Other toxicological information

subchronic (90 days) oral toxicity, rat: No Observed Effect Level <=50 mg/kg/day.

not carcinogenic.

Not embryotoxic.

Not teratogenic.

#### 12. ECOLOGICAL INFORMATION

#### Ethylenediamine

#### **Ecotoxicity**

fish

Acute toxicity, 96h-LC50: 640 mg/l (Poecilia reticulata)

daphnia

Acute toxicity, 48h-EC50: 17 mg/l (Daphnia magna)

algae

Acute toxicity, 72h-IC50: 71 mg/l (Selenastrum capricornutum)

bacteria

Acute toxicity, E50: 29 mg/l ( Pseudomonas putida )

Acute toxicity, E50: 3 mg/l (Nitrifying bacteria)

Fate

**Degradation Biotic** 

Readily biodegradable (Closed bottle test)

Other information

Activated sludge respiration inhibition test EC50: 1600 mg/l.

Chronic toxicity (28 days): No Observed Effect Level > 10 mg/l (Gasterostues aculeatus)

Chronic toxicity (21 days ): No Observed Effect Level 2 mg/l ( Daphnia magna )

#### 13. DISPOSAL CONSIDERATIONS

#### **Product**

Incineration is recommended.

#### Contaminated packaging

Containers which cannot be cleaned should be disposed of in the same manner as the substance.

Other information

For further advice contact manufacturer.

#### 14. TRANSPORT INFORMATION

Land transport

Product code 305201

Class

8

**Ethylenediamine, EDA** 

Classification Code CF1
RID class 8
Packing group
Hazard Identification No. 83
Substance Identification No. 1604
TREM-Card or ERG number CEFIC TEC(R)- 80GCF1-II
UN number 1604
Proper Shipping Name ETHYLENEDIAMINE
Other information Transport label(s): 8 + 3

Sea transport (IMO / IMDG-code)
Class 8
Packing group
UN number 1604
<b>EMS</b> F-E, S-C
Marine pollutant no
Proper Shipping Name Ethylenediamine
Other information Transport label(s): 8 + 3

Air transport (ICAO-TI / IATA-DGR)	
JN number 1604	
Class 3	
Packing group I	
Proper Shipping Name Ethylenediamine	
Other information Fransport label(s): 8 + 3	

#### 15. REGULATORY INFORMATION

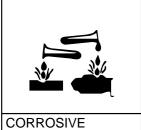

## Ethylenediamine, EDA

Product label name Ethylenediamine
Labelling according to EC directives
<b>EC-number</b> 2034686
Classification based on Annex-VI

R(isk) phrase(s) (EU classification)		
Code	Description	
R10	Flammable	
R21/22	Harmful in contact with skin and if swallowed	
R34	Causes burns	
R42/43	May cause sensitization by inhalation and skin contact	

S(afety) phrase(s) (EU classification)		
Code	Description	
S23	Do not breathe fumes	
S26	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice	
S36/37/39	Wear suitable protective clothing, gloves and eye/face protection	
S45.	In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).	

### Symbol(s) (EU classification)

#### Other information

TSCA Inventory (USA): yes DSL (Canada): yes

German Water Hazard Class (WGK)
