

## **HEPA-S140**

## 1. IDENTIFICATION OF THE SUBSTANCE OR PREPARATION AND THE COMPANY/UNDERTAKING

#### Product label name

Polyethylenepolyamines, distillation residues / Polyethyleneamines, mixture

## Supplier

DELAMINE B.V.

Barchman Wuytierslaan 10

3818 LH Amersfoort

PO Box 473

3800 AL Amersfoort

The Netherlands

Tel.: +31-334676897

## E-mail address of person responsible for safety data sheet

SDS.Delamine@delamine.com

## **Emergency telephone**

T+31570679211

F +31570679801

AkzoNobel Chemicals-Deventer-NL

#### Intended use

Chemical intermediate

#### Date of last issue / Revision number

2008/10/30 / 1.10

#### 2. HAZARDS IDENTIFICATION

Causes burns.

Harmful in contact with skin and if swallowed.

May be very toxic by inhalation of aerosols

May cause sensitization by inhalation and skin contact.

Very toxic to aquatic organisms.

May cause long-term adverse effects in the aquatic environment.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is to be considered as a substance in conformance to EC directives.

Information on hazardous ingredients

## Chemical description

Polyethyleneamines

## Composition / information on ingredients

Number	% w/w	CAS-number	Chemical name
1	100	068131-73-7	Polyethylenepolyamines

	Index-No.		Symbol(s) (EU classification)	Risk-phrase(s)
1	612-121-00-1	268-626-9	CN	R21/22 R34 R43 R50/53

#### 4. FIRST AID MEASURES

## Symptoms and effects

Corrosive to eyes, skin and upper respiratory tract.

May be very toxic by inhalation of aerosols ( Do not delay treatment of exposed individuals, death may result ).

#### First aid

# General

In all cases of doubt, or when symptoms persist, seek medical attention.

## HEPA-S140

#### Inhalation

Provide fresh air, rest, half upright position. Seek medical advice after significant exposure.

#### Skin

Remove immediately all contaminated clothing. Wash off with soap and water. Seek medical advice if irritation develops. Launder contaminated clothes with plenty of water before reuse. Destroy contaminated shoes if made of leather.

#### Eve

Rinse immediately and as long as possible with plenty of water (at least 15 minutes). Eyelids should be held away from the eyeball to ensure thorough rinsing. DO NOT remove contact lenses.

#### Ingestion

Only when conscious, rinse mouth, give plenty of water to drink. DO NOT induce vomiting. Seek medical advice.

## Advice to physician

No specific antidote known. Symptomatic treatment is advised. If burn is present treat as any thermal burn after decontamination. If necessary evacuation of the stomach contents should be undertaken by means carrying the least likelihood of aspiration (e.g. gastric lavage in combination with endotracheal intubation).

#### 5. FIRE-FIGHTING MEASURES

#### Extinguishing media

water, spray, foam, sand, Carbon dioxide, dry powder.

## Unsuitable extinguishing media

halones.

## Hazardous decomposition / combustion products

Nitrous gases may be produced.

#### Protective equipment

Wear self contained breathing apparatus. Wear a standard aluminised firefighting suit.

#### Other information

Cool closed containers with water. Do not direct a solid stream of water or foam into the burning material; this may cause spattering and spread the fire. Water used to extinguish a fire should not be allowed to enter the drainage system or water courses.

## Fire and explosion hazard

Toxic fumes.

#### 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions

For personal protection see Section 8.

## **Environmental precautions**

Treat using the best available techniques before discharge into drains or the aquatic environment.

#### Methods for cleaning up

Absorb with sand, sweep up and put into a container for disposal. Flush remainder with water.

#### 7. HANDLING AND STORAGE

#### Handling

Persons with a history of sensitization of the skin or the respiratory tract should not be employed in any process in which this product is used. Transfer and handle product only in closed system. When using do not eat, drink or smoke. Avoid contact with skin and eyes. Use only in well-ventilated areas.

When workers are facing concentrations above 1 ppm v/v they must use appropriate certified respirators.

#### Fire and explosion prevention

Keep away from sources of ignition - No smoking.

## Storage requirements

Store in a dry well ventilated place away from sources of heat and direct sunlight. Avoid contact with atmospheric moisture.

## **HEPA-S140**

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Engineering controls**

Take precautionary measures against static discharges. Use only in closed system. Do not use copper, nickel and cobalt containing alloys in process equipment. Ensure good ventilation and local exhaustion of the working area.

## Personal protection

## Respiratory

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use self-contained or supplied-air respiratory equipment. or. respirator with Filter K. When aerosols are present the combined cartridge K/P should be used.

#### Hand

Protective neoprene gloves.

#### Eve

Wear tightly fitting safety goggles.

## Skin and body

Protective neoprene boots, and protective clothing.

#### Other information

Launder contaminated clothes with plenty of water before reuse. Contaminated leather items (shoes, belts, watch bands etc.) should be removed and destroyed.

In this country no exposure limit has been established

## 9. PHYSICAL AND CHEMICAL PROPERTIES

# Appearance

liquid

#### Colour

dark yellow

#### Odour

ammonia like

## **Boiling point/range**

> 350 ℃

#### Melting point/range

not determined

## Flash point

184 ℃ ( Pensky-Martens, closed cup )

#### **Flammability**

not determined

# **Explosive properties**

not determined

## **Oxidising properties**

not applicable

#### Vapour pressure

< 0.001 kPa (20 ℃)

# Density

1015 kg/m³ (20 ℃ )

Product code 308681

## **Bulk density**

not applicable

# HEPA-S140

Solubility in water

Completely miscible

Solubility in other solvents

not available

pH value

approx. 12 (100 g/l water, 20 ℃)

Partition coefficient n-octanol/water

Log Pow: < 0

Relative vapour density (air=1)

not determined

**Viscosity** 

600 mPa.s (40 °C)

**Autoignition temperature** 

> 300 ℃

**Explosion limits** 

not determined

## 10. STABILITY AND REACTIVITY

## **Conditions to avoid**

Formation of an aerosol.

## Stability

Stable under recommended storage and handling conditions (see section 7).

#### Incompatibles

acids, chlorinated hydrocarbons, oxidising agents, copper and copper alloys, nickel, cobalt.

# **Hazardous decomposition products**

Nitrous gases may be produced.

## 11. TOXICOLOGICAL INFORMATION

## Polyethylenepolyamines

## **Acute toxicity**

## Oral LD50

rat: > 2000 mg/kg ( female ) 1350-2000 mg/kg ( male )

## **Inhalation LC50**

May be very toxic by inhalation of aerosols

#### **Irritation**

## Skin

Corrosive

#### Eye

Corrosive

Product code 308681

## Respiratory

Highly irritating

#### Sensitization

Causing skin sensitization

Causing sensitization of the respiratory tract

## 12. ECOLOGICAL INFORMATION

# **HEPA-S140**

**Polyethylenepolyamines** 

**Ecotoxicity** 

fish

Acute toxicity, 96h-LC50: 100 mg/l (Poecilia reticulata)

daphnia

Acute toxicity, 48h-EC50: 2 mg/l ( Daphnia magna )

Acute toxicity, 72h-IC50: 0.2 mg/l ( Selenastrum capricornutum )

bacteria

Acute toxicity, EC50: 5 mg/l (Pseudomonas putida) Acute toxicity, EC50: 319 mg/l (Nitrifying bacteria)

**Fate** 

**Degradation Biotic** 

Not Readily biodegradable (Closed bottle test)

Other information

Activated sludge respiration inhibition test EC50: 3200 mg/l

## 13. DISPOSAL CONSIDERATIONS

**Product** 

Incineration is recommended.

Contaminated packaging

Containers which cannot be cleaned should be disposed of in the same manner as the substance.

Other information

For further advice contact manufacturer.

## 14. TRANSPORT INFORMATION

Land transport

## 15. REGULATORY INFORMATION

## Product label name

Polyethylenepolyamines, distillation residues / Polyethyleneamines, mixture

# Labelling according to EC directives

#### **EC-number**

268-626-9

## Classification based on

Annex-VI

R(isk) phrase(s) (EU classification)		
Code	Description	
R21/22	Harmful in contact with skin and if swallowed	
R34	Causes burns	
R43	May cause sensitization by skin contact	
R50/53	Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment	

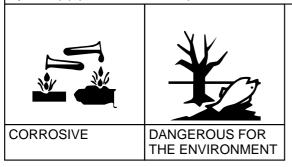

## S(afety) phrase(s) (EU classification)

# **HEPA-S140**

Code	Description
S26	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice
S36/37/39	Wear suitable protective clothing, gloves and eye/face protection
S45	In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible)
S60	This material and its container must be disposed of as hazardous waste
S61	Avoid release to the environment. Refer to special instructions/Safety data sheets

# Symbol(s) (EU classification)

## Other information

TSCA Inventory (USA): yes

DSL (Canada): yes

Substance and/or product listed in Directive 96/82/EC.

# **German Water Hazard Class (WGK)**

2

## 16. OTHER INFORMATION

R-phrase information		
Chemical name	R(isk) phrase(s) (EU classification)
